In the United States there's a burglary almost every fifteen seconds, especially during the day when people aren't at home. But don't be afraid. There are a lot of things you can do to protect your house from burglars.

First of all, you shouldn't let people you don't know into your home. You should always look through the peephole before you open the door. It's also a bad idea to leave money, jewellery or keys next to windows. Always lock all doors and windows when you leave the house, and if possible, install an alarm system and check it often to make sure it works properly.

Another way to protect your home is to make it look busy all the time. Leave the radio on when you are away and fit dusk-to-dawn lights in the garden. That way, anyone watching the house will think that someone is there.

Finally, join a Neighbourhood Watch programme and call the police the moment you see something unusual in your neighbourhood. And remember: never put up a fight with a burglar. Just hand over your valuables and then call the police. It's better to be safe than sorry.

Fires that happen in the home are a very serious problem today. In America, there are over 100,000 home fires every year and many start in the kitchen. There are a lot of things you can do to protect your house from fire.

First of all, you need to follow a few safety rules. You should never leave the kitchen while you are cooking. It's also a bad idea to wear loose clothes when you cook. Always keep the cooking area clean and don't let children come very close to the cooker.

It is also important to know what to do if a fire starts. If a pan catches fire, don't throw water on it! Put a blanket over it and turn off the heat. If the fire doesn't go out, call the fire brigade. If a fire starts inside the oven, keep the door shut and turn it off. If you burn yourself, run cold water over the burn.

Finally, install a smoke alarm and learn how to use it. Also, know the number of your fire brigade by heart. It's better to be safe than sorry.

A Strange Story

Reading

F Read the text and answer the questions.

When I was seven years old, my family left the big city and moved to the countryside. I was very excited because our new house was near a beautiful forest.

One day, I decided to go for a walk in the forest but I lost my way. I tried to get back but I just went deeper into the forest. I looked around me and started calling for help, but no one heard me. I was confused and scared because it was almost dark, so I sat under a tree and began to cry.

Suddenly I heard someone coming. It was a boy my age. "Hi," he said. "I'm Philip. What's the matter?" I told Philip that I was lost. "Don't worry," Philip said. "I live near here. I know the forest well." We walked and talked until we were out of the forest. Philip said goodbye and left before I could

thank him.

When I got home my mum was talking to a policeman. They were both very upset. "Oh, Tom, thank goodness you're OK!" my mum said when she saw me. "I lost my way in the forest, Mum, but I'm fine now. I'm so sorry." I said. "You were lucky, young man," the policeman said. "Never play alone in that forest, it's too dangerous. Eight years ago, a young boy named Philip MacMann lost his way in that same forest and never came back."

I did not say a word. I wanted to tell them about the boy who helped me but I was afraid they wouldn't believe me. Did a ghost help me? I couldn't sleep that night, or the next. I never saw Philip again and I never went back to the forest!

The person I admire the most is Leonardo da Vinci. He was born on 15th April 1452 in the town of Vinci, Italy. His full name was Leonardo di ser Piero da Vinci, which means Leonardo, son of Piero from Vinci. He was not only one of the greatest painters of all time, but he was also an architect, sculptor, engineer, inventor, mathematician and musician.

Leonardo da Vinci was a very intelligent and imaginative man. He created many different designs. Some of them were for a bicycle, a helicopter, a parachute and even an aeroplane! He also liked to study everything in nature. You can find some of his notebooks in museums today. In them you can see drawings of plants and animals as well as detailed sketches of the human body!

Leonardo da Vinci paid a lot of attention to detail and his paintings are very realistic. The Mona Lisa, for example, is one of his best known works of art. It is a painting of a woman whose face often makes people wonder if she is smiling or not.

I admire Leonardo da Vinci for his amazing works of art and his great inventions. His artwork will last forever and people around the world admire it even today.

()

e.g. Leonardo da Vinci was born in Venice, Italy. *F*

- 40 His father's name was Paolo.
- 41 He designed a parachute.
- 42 None of Da Vinci's notebooks survive today.
- 43 Da Vinci studied the human body.
- 44 Some people can't tell if the Mona Lisa is smiling.

Sun Shines On Fun Run

On 12th June, a 'Fun Run' took place in the town of Sunnyfield. A group of sixteen-year-old students from the local high school came up with the idea and over 500 people of all ages took part.

Luckily, it was a sunny day. Everyone had fun running, walking or skate-boarding the 10-mile distance. Thanks to the event, £2,346 was raised for the charity 'Cancer Care'.

Suzie Hamilton, one of the students who organised the run, said, "We wanted to do something useful for others and this seemed the most fun thing to do."

G Read the essay below and choose A, B or C to complete the sentences.

Most people today cannot imagine life without the Internet. I believe it is one of the most important innovations. Thanks to the worldwide web, our lives are easier and more exciting today.

MOBILE PHONES: HERE TO STAY
First of all, the Internet helps us find information easily. For example, we can read the news and find answers to questions 24 hours a day.

In addition, we can use the Internet for entertainment. We can send emails to friends and shop online. We can even listen to the latest music without leaving our homes.

However, some people would argue that it has a negative effect on society. If we don't have to leave our houses to shop, to learn, or to work, what will happen to life as we know it?

In my opinion, the Internet has more advantages than disadvantages. Our lives are better with it and it is here to stay.

e.g. Most people nowadays

A cannot live without the Internet. B imagine life without the Internet. C live without the Internet.

36 Thanks to the worldwide web, our lives have become

A difficult and more stressful. B simpler and more interesting. C easier and more stressful.

37 The Internet is important mostly because A it allows us to find information easily. B it provides cheap shopping online.

C it plays the latest music hits.

38 We can use the Internet for fun, as we can

A work on assignments. B send emails to friends. C read the news.

39 The biggest disadvantage of the Internet is

A that you don't have to go somewhere to work out.

B that you can't live a normal life.

C that it can change our habits and routines.

40 The Internet has

A more disadvantages than advantages B more advantages than disadvantages. C as many advantages as disadvantages.
